Certified Developer

WORK EXPERIENCE

CVS Pharmacy **Springfield, VA**
Shift Supervisor *February 2024 – Present*

- Led a team of 10 employees, overseeing daily operations and ensuring effective coordination among staff to optimize workflow and productivity
- Completed in-depth operations and management training, acquiring advanced business skills and a deep understanding of CVS's operational standards and company culture
- Enhanced customer satisfaction by proactively addressing inquiries resulting in a consistently positive shopping experience

Accenture Technology Development Program **Washington, D.C. (Remote)**
Participant *February 2022 – June 2022*

- Developed 4 responsive websites using semantic HTML, CSS, and Vanilla JavaScript, achieving 100% compliance with W3 standards and a 90% user satisfaction rate for UI/UX
- Created a full CRUD CLI customer order system in Python and SQL that efficiently handled 50+ daily transactions

Hack the Hood Tech Foundations **Austin, TX (Remote)**
Participant *September 2022 – December 2022*

- Completed 40+ hours of specialized training in web design, UX, and the software development life cycle
- Developed foundational knowledge of Unix/Linux operating systems with an emphasis on administration
- Utilized Git and GitHub version control systems in order to streamline team workflows
- Automated routine tasks using Bash and Shell scripting

PROJECTS

OuiParle Language Learning *August 2024 – Present*
Lead Developer

- Led technology strategy and development for a language-learning app using Django Rest Framework and React Native
- Managed a cross-functional team of designers, marketers, and executives using Jira to successfully deploy the app, ensuring optimal uptime and a fully scalable infrastructure
- Ensured secure data management, complying with GDPR/CCPA via AWS solutions to reduce security risks

IT Services and IT Consulting *2022 – Present*
Freelance IT Specialist

- Consulted with clients to identify and analyze technical requirements, providing tailored solutions in full-stack development with Django, React, and PostgreSQL
- Designed and delivered custom web applications, incorporating Google's Material Design principles to ensure intuitive and accessible user interfaces
- Advised on cloud infrastructure strategies, utilizing AWS EC2, S3, Cloudfront,, Lambda, IAM, Route53 to optimize application deployment, scalability, and performance

Sassy Hair Salon Promotional Web Application *May 2024*
Full Stack Developer

- Developed and deployed a web app with React and Node.js, increasing online appointments by 20%
- Designed AWS-based cloud architecture to scale content and cut server costs by 25% while boosting performance
- Collaborated with stakeholders to revamp UI/UX, raising engagement by 18% and reducing booking friction
